COUNTIES, CITIES, VILLAGES, TOWNSHIPS, OTHER GOVERNMENTAL AGENCIES OR UNITS, CLUBS OR ORGANIZATIONS, BUSINESSES OR CORPORATIONS AND EDUCATIONAL INSTITUTIONS CAN APPLY FOR ASSISTANCE IN OUTDOOR SHOOTING RANGE CONSTRUCTION, INCLUDING: BACKSTOPS AND BERMS, TARGET HOLDERS, SHOOTING BENCHES, BARRIERS, PROTECTIVE FENCING, SIGNS, TRENCHES, GUN RACKS, PLATFORMS, RESTROOMS AND OTHER ITEMS CONSIDERED ESSENTIAL FOR THE PROJECT BY THE DEPARTMENT. INDOOR RANGES MAY BE ELIGIBLE AS WELL, INCLUDING CLASSROOM, STORAGE AND RESTROOM FACILITIES.

This grant program is administered as a reimbursement program. This means you must incur and pay all costs associated with the project before seeking reimbursement from WDNR. No grant advances are possible. It is possible for grantees to request partial (quarterly) reimbursements of the WDNR during the life of the project. Please see the Shooting Range Grant Program Guidance and Application Instructions.

WHO CAN APPLY

COUNTIES, CITIES, VILLAGES, TOWNSHIPS, OTHER GOVERNMENTAL AGENCIES OR UNITS, CLUBS OR ORGANIZATIONS, BUSINESSES OR CORPORATIONS AND EDUCATIONAL INSTITUTIONS CAN APPLY FOR THESE GRANTS.

ELIGIBLE ITEMS

- Outdoor range construction, including: backstops and berms, target holders, shooting benches, barriers, protective fencing, signs, trenches, gun racks, platforms, restrooms and other items considered essential for the project by the department.
- Indoor ranges, when it is determined by the department they are needed, including classroom, storage and restroom facilities.

INELIGIBLE ITEMS

- Construction of clubhouses and facilities not essential to the operation of the shooting range.
- Operation and maintenance of the range.

DEADLINES

APPLICATIONS FOR PUBLIC AND PRIVATE SHOOTING RANGE GRANTS ARE DUE ON NOV. 15, 2016.

Successful Sea Caves Watch Project
Saves Lives, Changes Hands

By Marie Zablocki

A public safety project designed to monitor wave conditions at the popular mainland sea caves in the Apostle Islands National Lakeshore has been turned over to the University of Wisconsin-Madison to the National Park Service and several partners.

SeaCavesWatch.org is a real-time webcam and wave sensor installations in the Apostle Islands. The website is also available via a special kiosk at the boat launch site at Meyers Beach in the national lakeshore.

The original project was co-led by Chris Wu, a civil and environmental engineering professor at the University of Wisconsin-Madison, and Geno Clark, a coastal engineer with the University of Wisconsin Sea Grant Institute. Josh Anisetti called a meeting of the "Central Wisconsin Outdoor Federation" – a cadre of conservationists who are making a difference for Lake Sherwood. The Central Wisconsin Outdoor Federation – a long-time affiliate of the Wisconsin Wildlife Federation. This committee has annually hosted the Federations District 4-West Sports Banquet. At this meeting, the members decided to move forward with a Ten Gun Raffle with proceeds going to save Lake Sherwood. The raffle winners are to be drawn at a Steak Fry on August 29th. The committee also added a unique feature to the raffle and with a $100 check made out to the Wisconsin Wildlife Federation and mailed to the WOF headquarters in Granton, the donor is eligible to win a new Ruger American Rifle. As of August 20th, they had in excess of 60 names on the BBG BOARD at Tommy’s Hill Top Bar that’s providing in excess of $8,000 for the cause. The committee estimates that it has raised around $15,000 for the 10 gun raffle and to sweeten the pot, the Wisconsin Wildlife Federation has donated an additional $5,000. These folks were thinking that they might raise $25,000 with this program. They’re now setting their sights a bit higher.

The dredging is currently out for bids and if everything works according to plan, the dredging will be accomplished before the snow fly which will allow the lake to recharge over winter. Then the next step will be to restock the lake in the spring.

Hats off to all the donors and volunteers connected with The Central Wisconsin Outdoor Federation and their cadre of conservationists who are making a difference for Lake Sherwood.

The Central Wisconsin Outdoor Federation has dedicated funding to Save the Lake. The donors are the key to making this happen and they are the ones who will be able to contribute to the cause. It's Calendar time if you have not received your calendars please arrange to get a hold of Kim Lang, in the WWF office and get what is needed, and it's hoped that each of you can find at least one month location to place the calender orDIG couple of calendars to, present to new.

All Diners are encouraged to visit the affiliated Sporting Clubs in your area, get to know the players in these organizations and encourage them to become active in the Federations. Our committee structure caters to a wide range of outdoor interests and we need their input, the Federation can always use new blood with new ideas.

Respectfully,
George Barshert

District 4 Activity

WDNR August 2015

The public is being asked to provide input to help determine the scope of a draft environmental impact statement for the proposed Badgerow Swine operation in the town of Eileen in Bayfield County.

The Department of Natural Resources is preparing the proposed by Reicks View Farms, LLC. The County.

A 26,000 hogs. Enclosed concrete manure manure storage pits would be constructed under each building. Manure would be spread over 900 acres of land owned or leased by the operation in the town of Eileen in Bayfield County.

Individuals can submit comments about the proposed project to the public in the winter, our motto is, “check the camera first!”, but we open the caves or before we open the caves in both summer and winter, the National Park Service was in need of aisto see that from the launch site.”

The website is also available via a special kiosk at the boat launch site at Meyers Beach in the national lakeshore.

The original project was co-led by Chris Wu, a civil and environmental engineering professor at the University of Wisconsin-Madison, and Geno Clark, a coastal engineer with the University of Wisconsin Sea Grant Institute. Josh Anisetti started the project. It was funded by the National Oceanic and Atmospheric Administration, the Wisconsin Coastal Management Program and the Friends of the Apostle Islands. The Friends of the Apostle Islands will provide outreach and communications for the project. The University of Wisconsin-Madison will provide technical assistance for equipment operation and website maintenance. The National Park Service will deploy and retrieve the underwater wave pressure gage and cable. The website is available for review and a hearing has been scheduled. No permit decisions will be made until the draft environmental impact statement process is complete.

The National Park Service was interested in the project. It was funded by the National Oceanic and Atmospheric Administration, the Wisconsin Coastal Management Program and the Friends of the Apostle Islands.

Tom Dahlen & The Crowd at Tommy’s Hill Top Bar
Oconto River Kids “ORK”  
Jesse Glodowski

Support a Great Cause

Over the last three years, the Wildlife Federation has been working closely with an organization called Oconto River Kids. This organization was formed in 2012 and provides hunting and fishing opportunities for children with life threatening illnesses. The last three years, the WF has provided ORK a bear tag that is issued to the Federation for youth hunting. While providing a variety of hunting and fishing opportunities for terminally ill youth, ORK’s signature program is to provide bear hunting opportunities to between 6 and 10 youth every September.

This year the WF donated the bear tag to a young man named Jesse Glodowski from Stevens Point. The hunt was monitored by off-duty Wisconsin Conservation Warden Joe Paul on property he owns in Price County. He and Jesse were accompanied by Jesse’s father Bill Glodowski from Stevens Point. The hunt was mentored by off-duty Wisconsin Conservation Warden Joe Paul on property he owns in Price County. He and Jesse were accompanied by Jesse’s father Bill Glodowski from Stevens Point. The hunt was mentored by off-duty Wisconsin Conservation Warden Joe Paul on property he owns in Price County. He and Jesse were accompanied by Jesse’s father Bill Glodowski from Stevens Point.

The beautiful 80 degree August hunting, August 14, 2015, Jesse took a perfect shot and harvested a 210 pound black bear. The photos on this page show the results of this successful hunt. Jesse will be receiving his Eagle Scout Rank posthumously as he passed on from his illness on August 19, 2015. His parents are having the bear hide made into a rug to commemorate Jesse. The Wildlife Federation has donated $250 to assist with materials and tanning the hide.

What can you do to help? There are two ways that you can help. The first is to make a monetary donation to the Oconto River Kids to help pay the expenses for the hunt. ORK is a totally volunteer organization. It is incorporated as a 501 (c) (3) nonprofit organization under state and federal law and any monetary or in-kind donation is tax exempt. Another way to help is by donating a bear tag to the organization for a youth to use. In the past WF has had members donate bear tags in addition to the tag issued to the WWF. The mailing address for the organization is Oconto River Kids, P.O. Box 288 Mountain WI 54149. Their President and Treasurer is Eric Bonatz (773-391-8363) and their Vice-President is Joe Paul (715-416-0086). There is not a better use for a bear tag or a financial donation.

WFW “RANGE” AFFILIATES

2015 Call for Deer Gun Club Sight In activities! Let’s share the opportunity for Hunters to dust off last season’s sights with a 2015 Range experience. Include Range fee - firearm expert and gunsmith services when applicable.

“LET’S All Be Safe Out There !!!”

Share your Club Sight-In Calendar schedule with the WFW membership within the October/November issues of WISCONSERVATION.

Conservation Congress – WWF Waterfowl Committee Activity

The 2015 Waterfowl Season planning sessions took place on a beautiful 80 degree August Saturday starting at 9:00AM. Department of Natural Resources Waterfowl Ecologist Kent Van Horn presented the proposed USFWS “Framework” to 20+ members of the Conservation Congress Waterfowl Committee. Q & A activity took place with the committee taking official positions on the 2015 Waterfowl Framework. Additional committee agenda items followed including several citizen resolution proposals. Adjournment 1:45pm.

At 2:00pm, a second Framework Session commenced involving Waterfowl hunting stakeholders which included individual waterfowl hunters. The WWF Waterfowl Committee membership includes Directors, Burlington Conservation Club – Black Shag Conservancy Club – Lake Poygan Sportsmen’s Club – Wisconsin Waterfowl Association – Green Bay Duck Hunters – Challenge The Outdoors and the La Crosse County Conservation Alliance. The Moaede Hunter’s Club was also in attendance.

Framework specifics, (Bag Limits, Opening Day Shooting Time, Season Calendar Hunting Split Dates etc.) were discussed at length in an attempt to satisfy both the North Zone and South Zone hunters recognizing “mother nature’s” late Fall Weather conditions terminate some hunting experiences. The preliminary planning players are the USFWS, the four Flyway Councils and Flyway state Natural Resources Officials. Always a talking point is the north/south “split”, norther hunters concerned about an early freeze – less the Bay of Green Bay folks and the Mississippi River fowlers.

The Southern Zone Water hunters desire the latest hunting calendar possible even beyond the deer gun season as waterfowl especially Canada Geese remain active in agriculture fields. So every year the Highway 10 North/South hunters speak to the issues and submit majority vote issues for consideration to the Department of Natural Resources via Waterfowl Ecologist Kent Van Horn.

Meeting adjourned 4:15PM - Do all the “Framework” changes make it ? – NAH! However the process does afford many statewide “water fowlers” to speak to all issues which is a healthy debate process. HERE are the 2015 REGS!!!

2015 Waterfowl Seasons

60 Day Season – 6 ducks, no more than 4 mallards (only 1 may be a hen), 3 wood ducks, 1 black duck, 2 redheads, 3 canvasbacks, 2 bluewinged teal and 2 canvasback. 5 mergansers, not more than 2 hooded. Coot daily bag of 15.

Opening Day shooting hours begin at ½ hour before sunrise.

Duck Season Dates

Youth Hunt: Sept. 19 and 20

North Zone: Sept. 26 – Nov. 24

South Zone: Oct. 3 – Oct. 11 & Oct. 17 – Dec. 6 (5 day split)

Mississippi Zone: Oct. 3 – Oct. 9 & Oct. 17 – Dec. 8 (7 day split)

• Close dates: Saturday Oct. 10 through Friday Oct. 16 and reopens on a Saturday

Goose Season Dates

Exterior Zone: 92 days total. Daily Bag of 2

• North – Sept. 16 – Dec. 16

• South – Sept. 16 – Oct. 11 & Oct. 17 – Dec. 21

• Miss. – Oct. 3 – Oct. 9 & Oct. 17 – Jan. 9

Horizon Zone: 2 periods. Daily Bag of 2 tags per hunter

• H1 – Sept. 16 – Nov. 1

• H2 – Nov. 2 – Dec. 16

Snow/Blue Geese, Ross’ Geese, Brant, White-fronted Geese and other geese

Daily Bag Limits: White Geese (Snow/Blue Geese and Ross’ Geese) - 20; Brant - 1; Greater White-Fronted Geese - 1

Exterior Zone: 92 days total.

• North – Sept. 16 – Dec. 16

• South – Sept. 16 – Oct. 11 & Oct. 17 – Dec. 21

• Miss. – Oct. 3 – Oct. 9 & Oct. 17 – Jan. 9

Horizon Zone: Sept. 16 – Dec. 16

Migratory Bird Seasons

Cool, Moorhen, Rails and Snipe: Same as wild ducks in the zone in which you are hunting.

Daily Bag Limit: Coot and Moorhen – 15; Sora & Virginia Rails – 25; Snipe - 8

Wisconsin Wildlife Federation
2015 Print of the Year
ABOUT THE ARTIST
Growing up on a western Wisconsin dairy farm seems an unlikely place for an interest in art to develop with so much to do, but develop it did. I started drawing horses and people at a relatively young age and my parents encouraged this talent. Travel to Europe and exposure to art and architecture garnered a continued pursuit and degree in art. I’m intrigued by the colors, textures, and forms as they develop on canvas as well as the feeling of being there. I’m on high alert when something catches my attention and enjoy the visual fodder for my paintings and has given me much time to be aware of God’s gifts in the vastness of nature. What lies beyond the sense of trail or bend in the river may be embedded in my memory only to emerge on canvas.

Exhibited at Hardy Gallery in Ephraim, WI and various regional galleries. Current studio artist at Xanadu Gallery, Scottsdale, AZ.

Wisconsin supplies firefighting resources nationally through a wildland fire suppression agreement with the U.S. DA-Forest Service. The agreement provides for full reimbursement of all assistance provided by Wisconsin, including personnel, travel and equipment costs.

To learn more about Wisconsin’s forest fire program, visit DNR.wi.gov and search “forest fire protection.”

MADISON, Wis. — The Wisconsin Department of Natural Resources expanded its support to fire suppression efforts in other states this week with mobilization of a strike team including 17 firefighters and five engines to western Montana.

During the past week, the pace of activity has increased significantly due to continued dry weather in the northwest U.S. DNR now has 30 staff members assigned to fires in California, Washington, Oregon, Idaho and Montana.

Firefighting personnel and equipment provided earlier this summer to Alaska, Oregon, Washington, Michigan and the province of Manitoba have returned home to Wisconsin. DNR personnel have assisted with a total of 29 different out-of-state wildfires this year.

“DNR is proud to be able to provide staff and expertise to cooperative fire suppression efforts now underway in the western U.S.,” said Trent Marty, DNR forest protection bureau director. “Other states have provided significant support to us here in Wisconsin, notably during the Germann Road fire in 2013, and this shared approach helps all agencies make efficient use of resources. The additional training and experience DNR staff members gain at out-of-state fires increases our ability to deploy effectively here in Wisconsin.”

The National Multi-Agency Coordinating Group, which is composed of top federal and state fire managers, increased the national preparedness level this week to planning level - 5, the highest level. This determination recognizes the increased fire activity across several geographic areas and the major commitment needed from the military, including the National Guard and active duty military, as well as other countries including Canada, Australia and New Zealand.

Wisconsin supplies firefighting resources nationally through a wildland fire suppression agreement with the US-DA-Forest Service. The agreement provides for full reimbursement of all assistance provided by Wisconsin, including personnel, travel and equipment costs.
